

# Fremantle Hospital– Hand Service

Now accepting patient referrals

The Hand Service at Fremantle Hospital offers a hand trauma and an elective hand surgery service.

Patient referrals are accepted for adult acute trauma including:

- flexor and extensor tendon injuries
- fractures
- nail bed injuries
- hand lacerations including nerve injuries
- fingertip amputations.

Non-surgical and post-surgical care is provided by physiotherapists and occupational therapists in consultation with the medical staff.

As we are a short stay service, we are unable to offer surgery for patients requiring extensive anaesthetic or surgeries requiring more than 2 hours in theatre.

Hand Service patient referrals:

Call– 0404 890 157 Monday to Friday 8am to 4.30pm

Fax– 9431 2911
